

Patrachauli

So wonderful is the creation of God,

We, the Sisters of Patrachauli, raise our hearts and thank God for the beauty of His creation. Patrachauli house is surrounded by God's beautiful creation... Our campus is full of greenery, and we can experience the glory of God and His presence. Along with His creation, we grow varieties of vegetables, flowers, and other herbal plants, and we care for domestic animals. We get fresh vegetables, pure milk, eggs and meat. Here are some images of our activities in caring for God's nature.
