

Celebration of Season of Creation - Raghunathpur Community

Listen to the voice of Creation.

Human beings are so made that they cannot live, develop and find fulfilment except in sincere self-giving to others totally.

As a community, we reflected and took time to listen to the sweet song of nature in praise of our beloved Creator, as well as the lamenting of our common home due to our mistreatment.

We have decided to take the following steps to promote changes in the ecological system: -

- We use water and electricity sparingly and take of the common things
- Keep the house and surroundings neat and clean
- Encourage students and neighbours to have a kitchen garden and plant more trees
- Teach students to practice nature meditation and breathing exercises
- Plant trees and flower plants in our garden
- Decompose all the waste like food, leaves, weeds etc. and use as manure. Avoid chemical fertilizers
- Use plants, fresh leaves and flowers for decoration
- Use LED bulbs and solar energy to reduce the consumption of electricity.
